		2001	Tricia Butler (Water 3 Engineering)

? May be out of order; no documentation to verify

* Ted Dunn (took over for Estrada as Jim had family illness)

It is with joy and pride that I present this historical list {1950-1996} of SARBS Presidents. Mike Heinz got it off the ground many years ago with his committee, then Don Roberson gave it another claim to fame during his presidency. Last but not least, Carl Conner (life member and one of the founding fathers) labored over it and perfected it to as much accuracy as is possible after 35+ years, so I can present it to you and include it in the SARBS directory that I am working on. I find it quite remarkable that this organization started with just a handful of people and has blossomed into over 400 members. I have read through past newsletters, BULLETINS, letters, etc. and appreciated how each Board, their committees and membership have contributed to making SARBS a valuable and worthwhile resource within the water pollution control community.

SARBS Historian, Yvonne Schwab 12/89 (revised 1996)

Added names and agencies to update list on January 7, 2000 – Paula Zeller, SARBS Past President.
