Keely at 925.627.3387

Note: If you are unable to attend, please cancel by April 6th, or send a substitute. Failure to attend results in a financial burden which may necessitate increasing the cost of future tours

Overview: The West County Wastewater District has existed for over 88 years for the purpose of protecting and serving the public health of the community through the construction and maintenance of a sewer system. The District's operation includes sewage collection, treatment and disposal, serving approximately 126,000 people. The District also provides contract services to neighboring communities to maintain various local government facilities. The District participates in the West County Agency, a joint powers authority, for the purpose of maintaining effluent and sludge disposal facilities. In 2009 the plant was honored by the CWEA San Francisco Bay Section as Plant of the year (Medium Plant) and the same year through California Association of Sanitation Agencies won the Outstanding Capital Improvement Project Award "Solar Energy Facility".
